# OUTDOOR DESIGN BASICS

Creating your outdoor space begins with navigating through the variety of products you have to choose from. The fun begins with narrowing those products down based on a few personal style choices to bring your ultimate product selection into focus. Below is a simple guide on what style cues to consider when choosing your hardscape products: Color, Shape, Texture and Accents.

## 1 COLORS

Pavers come in neutral and natural tones such as grays, tans, reds, ivories and blends of each. They can work to complement or harmonize with your existing color schemes. Pick what you love, but also understand your vision so you pick tones with intent.

## 2 SHAPES

Paver structures have evolved over time. Once simple 4x4s, they now come in a wide assortment of sizes and shapes that can be mixed to look geometrical or natural. Belgard specializes in irregular shapes that combine to form a less structured stone or flagstone appearance.

## 3 TEXTURES

Paver textures can help you subtly accent your outdoor space. Our pavers come in several different textures—from smooth for a contemporary look to rustic for a natural or antique look.

## 4 BORDERS & ACCENTS

Once you have selected your primary paver, don't forget to finish the space with borders and accents. You can really show your style and choose to match, complement or contrast your primary paver selection. Have fun with the process and make your space one-of-a-kind.
